Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

We don't use our cell phone that often and already pay for a land line. Please don't hurt us seniors that already have to pay so many fees. We use our tracfone only on vacations but if the new fees are adopted we will be facing dropping our cell phone as we can't afford any more fees. It seems every time congress needs money they ask for more fees. We as seniors and tax payers can't do that when we need money. We have to live within our budget. How about trying that in Congress and eliminate all pork barrel items. It is time you congressmen stop adding things to help your people and think of the nation.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.
